7 August 1967

25X1 MEMORANDUM FOR : All ☐ Program Managers and Branch Chiefs  
SUBJECT : ORD-TSD Project Review

25X1 1. The first part of our mutual review of pertinent projects has been completed with the submission to this office by each of you of your review of pertinent ORD projects. The next step now will be for ORD personnel to receive from each of us briefings on TSD ☐ projects of direct or potential interest to our joint program. Accordingly, in the course of the next several weeks ORD personnel will be getting in touch with you to arrange for and receive detailed technical briefings on ☐ projects related to our joint effort in much the same fashion as their personnel briefing us these past several weeks. I want to stress that it behooves each of us to provide our ORD contacts with as detailed a technical briefing as time and circumstances permit. This can and should include the technical and contractual history of the project effort and also a current summary of present activities. The only area which on occasion may need restrictive handling will be the specific operational requirements leading to a particular piece of work. This should not preclude, however, a generalized discussion of the operational environment in any given case.

2. It is expected that this phase will run through the month of August. Concurrently, ORD management will be reviewing both our research requirements and our validation of their present FY'68 program.
